

Supply all artwork files in vectorized PDF file format. Printing is always in CMYK + special colors (White/Clear/Lacquer). When using a colored name badge plate, a base white is added when necessary to replicate the correct printing color. It's not possible to print on the slanted edge of this name badge product.

Very important: For hairline prints (less than 0.5mm or 0.02"), a bit wider clear lacquer is added to hold the print on the surface of the badge.
